**Collier County Public Library Partnerships with the Community**

In appreciation of our libraries and strong community bonds, Collier County Public Library is celebrating National Library Week by partnering with WGCC/PBS with a free community screening of the Fred Rogers documentary, *Won’t You Be My Neighbor?* on Saturday, April 13, 2019 at 2:00 pm at Headquarters Library.

Library programs encourage community members to meet to discuss civic issues, work together using new technologies like 3-D printing or learn alongside one another in computer technology classes. Library staff also partner with other civic and service organizations, such as the Richard M. Schulze Family Foundation and NCH to actively engage with the people they serve, always striving to make sure their community’s core needs are being met.

Collier County Public Library helps lead the community by partnering with national, state and local organizations like PBS, NASA and Everglades Astronomical Society for summer reading programs that are both educational and fun. This year’s theme is “A Universe of Stories”, and we will be hosting an astronaut from NASA as well as providing NASA-enriched programming.

First sponsored in 1958, National Library Week is a national observance sponsored by the American Library Association (ALA) and libraries across the country each April.
